Dear First name,

Welcome to the Winter edition of Neff "In The Kitchen". This season we share with you

## Cooking with Steam

Cooking with steam produces delicious and healthy results. Steam cooking releases the unique flavour of each ingredient, as well as helping foods retain their colour and a large portion of their healthy nutrients and vitamins.

Neff steam ovens with CircoSteam® technology unite the advantages of steam cooking and hot air. The clever combination and ratio of heat and steam produces roasts that are tender on the inside with a fantastically crisp crust on the outside, while opening up possibilities for new dishes as well. Cook an entire meal on multiple levels simultaneously without intermingling the flavours.

The Neff steam range includes the CircoSteam® combination oven (C47C42N0GB, above left) or the Steam oven (C47D42N0GB, above right).

Alternatively if you want to cook with steam but don't have the space for a dedicated built-in model the versatile System Steamer accessory (N8642X0, right) is perfect for use in selected Neff ovens.

## WIN ONE OF 5 NEFF SYSTEM STEAMERS VALUED AT \$799.

Share your original "Winter Warmer" recipe with us and the 5 best entries selected by our Neff home economists will win a Neff System Steamer (N8642X0, below) valued at \$799.

Email your original entry to: [neffinthekitchen@sampfordixl.com.au](mailto:neffinthekitchen@sampfordixl.com.au)
